

The Department for Child Protection
Kinship Care Program Learning and Development

Online Safety

Technology has become a part of our everyday lives and while there are many positive aspects of internet use, it is not uncommon for families to experience challenges in managing children’s screentime and maintaining cybersafe homes.

This session is for kinship carers of children and young people of all ages and will be run by Cybersafe Families, a provider endorsed by the eSafety Commissioner. The session is delivered by professionals in the field and will include:

- the most popular and current social media platforms
- tools to recognise and manage cyber bullying
- online grooming and other risks
- communication strategies – how to start a difficult conversation
- strategies for supporting positive online behaviour
- managing screentime

.....

This session will run for approximately 1.5 hours. Coffee and tea are provided.

We are looking forward to spending some time with you and helping you navigate your kinship care journey.

BENEFITS

Ask our subject matter expert questions that may help address your specific concerns.

Take home a resource folder with information and links to further support.

Meet other kinship carers in your community to start building your support network.
