

## The Department for Child Protection Kinship Care Program Learning and Development

# Helping kids thrive: Case plans and what they mean

**The case plan is designed to ensure that children and young people who live away from home have the same opportunities as other children and young people to reach their full potential.**

The Department for Child Protection (DCP) is committed to working in partnership with you to make sure you have the information and support you need.

This learning and development module includes:

- Information about how case plans are created, implemented and reviewed to help your children and young people meet their goals
- Ways that you can contribute to case planning in a meaningful way
- Roles and responsibilities of the care team to implement the case plan goals and actions.

.....  
This session will run for approximately 3 hours  
with a short break. Catering is provided.

We are looking forward to spending some time with you  
and helping you navigate your kinship care journey.

### BENEFITS

Connect with other carers in the community that provide care for their kin in a supportive and relaxed environment

Come away feeling more confident in contributing to your child or young person's case plan

Feel empowered to participate in decision making that affects you
